Family Medicine Core Clerkship Evaluation Addendum Part B

Date of Rotation: _____ Preceptor Name _____ Practice Site: _____

PROCEDURES Observed or Performed

ANATOMIC LOCATION	PROCEDURE	OBSERVED	ASSISTED/PERFORMED
SKIN PROCEDURES	Incision & Drainage of Abscess		
	Wound Debridement		
	Repair Laceration (sutures)		
	Repair Laceration (staples)		
	Repair Laceration (glue)		
	Skin Biopsy (shave)		
	Skin Biopsy (punch)		
	Skin Biopsy (excisional)		
	Skin Excision		
	Cryotherapy of skin lesions (nitrogen)		
	Electrocautery of skin lesions		
	Scrape skin for fungus determination		
	Use Wood lamp		
	Release subungual hematoma		
	Drain acute paronychia		
	Partially remove toenail		
	Perform wedge excision of ingrown toenail		
	Remove foreign body		
	Pare skin callus		
	Excise skin carcinoma		
Remove entire toenail			
LOCAL ANESTHETIC	Infiltrate local anesthetic (lidocaine)		
	Perform digital block finger/toe		
EYE PROCEDURES	Instill fluorescein		
	Perform slitlamp examination		
	Remove foreign body		
	Apply eye patch		
	Remove corneal rust ring		
EAR PROCEDURES	Remove cerumen		
	Remove foreign body		
NOSE PROCEDURES	Remove foreign body		
	Cauterize for anterior epistaxis		
	Pack anterior nasal cavity		
	Pack posterior nasal cavity		
CHEST PROCEDURES	Perform needle thoracentesis		
	Place chest tube		
GASTROINTESTINAL	Insert Nasogastric Tube		

	Perform fecal occult blood test		
GASTROINTESTINAL	Perform anoscopy/proctoscopy		
	Incision & Drainage of External Hemorrhoid		
	Perform gastric lavage		
GENITOURINARY (Women's Health)	Place transurethral catheter		
	Cryotherapy or chemical therapy for genital warts		
	Aspirate breast cyst		
	Perform Pap smear		
	Fit and insert diaphragm		
	Insert IUD		
	Perform endometrial aspiration biopsy		
OBSTETRIC PROCEDURES	Perform normal vaginal delivery		
	Perform episiotomy and repair		
	Perform artificial rupture of membranes		
OBSTETRIC	Perform vacuum extraction		
	Perform D & C		
	Perform Colposcopy		
MUSCULOSKELETAL PROCEDURES	Splint-- injured extremities		
	Splint—apply to ulnar gutter		
	Dislocation—reduce finger		
	Dislocation—reduce radial head		
	Dislocation—reduce shoulder		
	Cast—Forearm		
	Cast—Scaphoid		
	Cast---below knee		
	Apply sling to upper extremity		
	Aspirate and inject knee joint		
	Aspirate and inject shoulder joint		
	Inject lateral epicondyle (for tennis elbow)		
	Aspirate and inject bursae (patellar, subacromial)		
	Perform fracture hematoma block		
	Reduce Colles fracture		
	Reduce boxer's fracture		
	Reduce other simple fracture		
	Apply full-leg cast		
RESUSCITATION PROCEDURES	Insert Oral Airway		
	Perform bag and mask ventilation		
	Perform endotracheal intubation		
	Perform cardiac defibrillation		
	Perform cardioversion		
INJECTION & CANNULATION PROCEDURES	Perform intramuscular injection (IM)		
	Perform subcutaneous injection (SC)		
	Perform intradermal injection (ID)		
	Perform venipuncture		
	Insert peripheral line (Adult) (IV)		
	Insert peripheral line (Child) (IV)		
	Insert peripheral line (Infant) (IV)		
	Perform lumbar puncture (Adult) (LP)		

	Perform lumbar puncture (Child) (LP)
